

INDIS Malta Job Description

Position Title:	Senior Executive I (Quantity Surveyor)
Reports to:	Chief Officer - Technical Office
Pay Grade:	CLA Grade 3
Department:	Technical & Design Office
Job Summary	
<p>The person will be responsible for establishing and managing all costs relating to building projects undertaken by INDIS Malta from the initial calculations to the final figures. The person will assist in minimising the costs of a project and enhance value for money for both INDIS and the main contractors, whilst still achieving the required standards and quality set out by both internal processes and external bodies e.g., statutory building regulations. When projects are completed, the Quantity Surveyor is responsible for assisting in the processing of claim payments from the relevant parties</p>	
Description of main tasks	
<p>Duties</p> <ul style="list-style-type: none"> • Prepares feasibility studies and proposals, consistent with the Unit's guidelines, to cost accurately and presents material to senior personnel for review and approval. • Assists in the investigation and conduct of tender reviews to assess the soundness of submitted tenders from a cost and technical perspective. • Together with the other Quantity Surveyors liaises with potential contractors to understand as appropriate technical costing rationale, submitting needs and tailoring solutions to meet budgets and provide value for money in project delivery. • Identifies and analyses risks related to costing estimates at an early stage and recommending contingency considerations. • Maintains accurate technical records and data associated with specific projects including cost plans, cost studies, analysis, spreadsheets, drawings and specifications. • Maintains an in-depth knowledge of the designated project which includes, but is not limited, to the contract and the scope of works. • Maintains a current understanding of technical and building industry trends and practices to utilise as required on specific projects. • Participates in and contributes to project team meetings to raise issues and concerns, highlighting priorities and process against set targets. • Values and assessing completed work and organising progress payments. • Identifies contract variances and submitting recommendations to Management as appropriate. • Applies standards and systems to projects undertaken, including Unit's and professional quality standards, systems and project management guidelines.
